The Benefits of Mulch & Pine Straw

Mulch

- Protects the soil from erosion
- Reduces compaction due to heavy rains
- Conserves moisture, reducing the need for frequent watering
- Maintains a more even soil temperature
- Curtails weed growth
- Keeps fruits and vegetables clean
- Keeps feet clean, allowing access to garden when damp
- Provides a finished look to the landscape

Pine Straw

(Has all the qualities of mulch plus these other benefits)

- Reduces rain water run off
- Insulates soil to keep plants cooler in the summer and warmer in the winter
- Improves soil aeration, structure and drainage over time
- Improves soil fertility
- Inhibits certain plant diseases
- Reduces plant damage from trimmers and mowers
- Doesn't float or wash away with flooding
- Breathes better
- Doesn't attract termites
